PRICES REDUCED

In line with lower prices of labor, butter, eggs, many other grocery items, many dry goods items, etc., which either have gone into effect or will do so within the next six to twelve months we have reduced our prices on many items in this list from 10 to 50%. This will allow a smaller income to still cover cost of roots, bulbs or plants to beautify the home grounds.

Our 50 acre farm is two miles due north of the Court House on the paved Jefferson Highway (No. 1) which passes through our farm and past our home and gardens.

We sell thousands of pansy plants and cut flowers including tulips, iris, peonies, gladiolus, delphiniums, etc. Our first peonies, *Officinalis Rosea* and *Officinalis Rubra* bloom in time for Decoration Day, our late ones, *Etta*, *Rubra Superba* and *Grandiflora* and sometimes *Marie Lemoine* last until July 4th to 6th, so we have peonies continuously for about six

weeks. Our first gladiolus open just when the last peonies are done and last till October.

Our easily worked sandy loam soil produces wonderfully clean peony roots as well as fine iris roots and tulip and gladiolus bulbs.

We know the quality of our peony roots will please you for they are as fine and clean as can be grown anywhere.

HOW TO PLANT

Set so eyes are not more than two inches below ground level. Pack soil well around roots but not too much around eyes. Cover first winter (after ground is frozen solid) with 3 to 4 inches of straw or litter. Remove early in Aprils.

WHEN TO PLANT

September 15 till ground freezes in November. I consider October the best time to plant as then they usually bloom the first season. I do not advise spring planting unless done very early.

SUBSTITUTION

Never except with your permission.

OUR GUARANTEE

We guarantee all roots true to name, but in any business a mistake is possible. If a customer receives a root from us that blooms untrue, we gladly send a true one, and you may also keep the mistaken one.

SIZE OF ROOT

Careful experiments prove to us that the natural division with 3 to 5 eyes is the best size to plant. Such divisions trimmed back as we trim them before shipment will in three years give a fine large plant with nearly all new root growth that is superior to a small division or a large clump.

HOW WE SHIP

We prepay postage or express on all peony shipments in the U. S. or Canada on orders of \$10.00 or over. On less than \$10.00 orders we will prepay postage if 10c, for each peony root is sent. Otherwise orders will be sent by express, charges collect.

PRICES AND DISCOUNTS

Net cash before shipment. A deposit of 25 per cent will hold order till September 15, when balance is to be paid. When all cash is sent with order \$11.00 worth of roots may be selected for \$10.00; \$30.00 worth for \$25.00; \$65.00 worth for \$50.00; \$135.00 worth for \$100.00. No discounts can be allowed on collections as they are always quoted at reduced prices.

HOW TO REMIT

Send remittance by post office order, express money order, check or bank draft to C. H. Smith, Box 427, Faribault, Minnesota.

Ratings are based on 100 being perfect. The name or abridgment of the originator is given in parenthesis following the variety name. (B) Brand, (Cr.) Crousse, (K) Kelway, (L) Lemonine, (D) Dessert.

TULIPS

Tulip bulbs should be planted in October or early November about 4 inches deep where the drainage is good. They enjoy a sandy loam soil, but will do well on heavy soils if planted where melting snow will immediately drain away. When ground is frozen solid cover with 2 or 3 inches of straw or litter, which should be removed early in April.

They may be left in one location for several years or may be dug each July, stored thinly in a cool dry place and again planted in October or early November.

The tulip bulbs quoted below are all No. 1 size, imported bulbs that will give the largest blooms under good conditions. The recent tariff law increased the duty on tulips.

BREEDER TULIPS

Ten named varieties separately labelled or mixed if desired. Dozen 85c; 100 for \$5.50. Deduct 5c per doz. and 25c per 100 if not mailed.

REGAL LILIES

Are perennials but usually start so early in the spring unless planted very deep, 10 or 12 inches, that they freeze off in May so it is best to plant them in the spring about early May, 6 or 8 inches deep. They bloom in July and are very beautiful. Blooming size bulbs, circumference 6 inches. 20c each. Doz. \$2.00, postpaid, if order is for 6 or more.

CROWN LILLIES

This lily is a species of Elegans. It is bright orange red, blooms in June, with a cluster of 5 to 9 beautiful blooms on the crown. It attracts attention of all visitors at once. May be planted in fall or spring and always blooms freely the first season. Large bulbs, 3 for \$1.00 postpaid.

DELPHINIUMS

\$1.00 orders Postpaid

Belladonna, light blue, and Bellamosum, dark blue, spring shipment 1½ year clumps doz. \$2.00. Early August 1930 seedlings for shipment in April or May, will bloom from July till November. 3 doz. \$1.00.

Hybrids, Wrexham strain seedlings same prices as Belladonna and Bellamosum seedlings.

PANSY PLANTS

We grow thousands of Pansy plants and sell both wholesale and retail. America is the very finest strain of pansies on the market today. In mammoth size, variety and brilliance of colors they are in a class of their own. Strong plants in bloom in April and May. 2 doz. for \$1.00, postpaid in first 5 zones

Young pansy plants for October planting that will bloom next spring. 6 doz. for \$1.00, postpaid.

GLADIOLUS

I grow more than 150 varieties of gladiolus. My new price list will be ready in February, 1931, and, of course, it's free. Better ask me to put your name on my mailing list if interested in that most wonderful summer cut flower the gladiolus.

A CLOSING WORD

All my peonies and iris are grown on ground that never grew them before and are thus healthy and free from disease.

I give careful, personal attention to and pack every order. I dig and divide all peonies myself priced at \$2.00 or more. I shall do everything humanly possible to please you. On this basis I solicit your orders.

Yours for fine flowers,

C. H. SMITH
